USING ESSENTIAL OILS WITH PURESIPA DELUXE

To avoid unnecessary damage to PureSpa Deluxe or harm to you or others who live or work with you, please keep the following recommendations in mind when using essential oils:

- Use 100% all-natural essential oil.
- DO NOT exceed 3-5 drops of essential oil per 3.4 ounces of water.
- Avoid spilling essential oil on your skin. If you do, immediately dilute it with a carrier oil like coconut oil or olive oil. If swallowed, seek medical help immediately.
- The water tank and cover are made of oil-proof materials. Other PureSpa Deluxe parts, however, should not come in contact with essential oil as some oil ingredients may dissolve them.
- Clean the water tank after each use. Some essential oils are not water-soluble and may remain in the water tank causing residue or an unpleasant odor if mixed with another essential oil.
- Immediately discontinue the use of any essential oil that makes you feel sick or produces an adverse side effect.
- Pregnant women, elderly people, young children or people with chronic diseases may be more sensitive to a particular fragrance.
- Store essential oil in a dark, cool place with the cap tightly closed and out of the reach of children and pets.
- Observe the expiration date of your essential oil. For most oils, the standard expiration date is one year from first opening. Citrus oils have a six-month expiration.
